
nature's plus protein protein shakes

Posted by Robert and Debbie - 2010/02/09 18:17

I had ordered from A1 also but then was contacted by them a week later saying they were out of the product and to expect a 2-4 week delay. Same thing with 911. They presently do not carry the shakes but are planning to. 911 said the manufacturer is overwhelmed with orders for their product and cannot keep up with demand so there is a shortage. In Phoenix I have found the G.G. shakes at Hi Health. I have just about used up the chocolate spiro-tein. I have had to add non-sweetened coca powder and a little stevia to make it taste better so it hasn't been too bad. Garden Greens is better though!! Debbie
