Senior Sustainability Consultant, Manchester Permanent, £32000 - £45000 per annum + Benefits Senior Sustainability Consultant - Manchester We are looking for an experienced Senior Sustainability Consultant with experience within an Environmental/Architectural background – to deliver innovative sustainable engineering solutions to a wide range of projects a variety of sectors; including retail, education, offices, urban, regeneration, healthcare and housing. You will be exposed to the full breadth of the Manchester practice, helping to deliver the same high standard of comprehensive and integrated building design services that has seen us become the UKs leading interdisciplinary practice of sustainability consultants, engineers architects and designers. Working closely with architects, urban designers, planners, civil engineers and building services engineers, you will need to show flexibility and be capable of organising not only your own time, but also that of a team of CAD technicians and graduates, as well as site investigations and other similar work. You will need to have a high level skill in communication through visual and verbal presentation and an innate enthusiasm for driving developments towards sustainability, through the practical implementation of the principles of sustainability. With a thorough understanding of environmental, social and economic issues at local, national and global levels, you will be keen to promote the built environment recognising the influence of sustainability and modern technology. In return you will be offered an attractive, competitive salary and a comprehensive package of benefits, together with a positive attitude to a work life balance. Contact Kelly Riddell at 01483 300515 or e-mail me at Ke...@cerebra.co.uk for more information Cerebra Recruitment Ltd acts as both an employment agency in relation to permanent vacancies and an employment business in relations to contract vacancies <http://www.cerebra.co.uk>
