## yahoo mail thunderbird Linking Outlook To Windows Live Hotmail

Posted by Incarnadine - 2010/02/09 04:20

---

I have been trying to connect Outlook 2007 to my Windows Live account, but I have had no success. I'm beginning to think that it's not possible. Is there something that I'm missing? Thanks for reading.

How are you doing it? You either need to use POP3 or the Outlook connector. [http://www.slipstick.com/problems/msn\\_denied.asp](http://www.slipstick.com/problems/msn_denied.asp) has links to the connector download and POP3 configuration instructions.
